... to the survey panel:

The FSB and ICM Research have recruited over 4,000 businesses to the FSB-ICM 'Voice of Small Business' Survey Panel. This panel of members will answer regular questions on different policy issues. The regular surveys will give the FSB the information it needs to make sure members' views are heard by policy makers. Together we can ensure the interests of small firms are at the top of the political agenda.

However, we need more members from Northern Ireland to make certain our data is sound. By signing up to the panel you will really help the FSB ensure that we can tell Government which small business issues are affecting small firms in this Region. There is no commitment to take part in every survey, so please register by visiting <http://www.fsb.org.uk/fsb-icm-panel>
