

SOCIAL SCIENCE WORKPLACE EXPERIENCE PROGRAMME

SSWEP summer placements – closing date 29 May

With many businesses looking for effective short term support and fresh ways to approach projects, we wanted to let you know about our summer placement programme the **Social Science Workplace Experience Programme (SSWEP)**.

How can SSWEP help your organisation?

SSWEP is a practical, cost-effective solution for small or medium sized businesses, social enterprises and not for profit organisations to access the skills and knowledge of social science undergraduates or postgraduates. Placements last for eight weeks on a full-time basis around a specific project defined by your organisation.

The work completed by students has proved to help host organisations move forward and enhance their business activities. Placements often result in greater market awareness, improved operational efficiency, or lead to increased profits or cost savings.

Projects cost up to £1,900 for an undergraduate and £2,300 for a PhD student (plus VAT). Contributions towards costs are available but funding is limited so please get in touch as soon as possible.

**To request an application pack or to register your interest, contact us on
t: 0870 850 0322 e: enquiries@stepenterprise.co.uk
Closing date: Friday, May 29th**

We look forward to hearing from you.

Kind regards
The SSWEP team at Step Enterprise

CLOSING DATE: May 29th 2009
