

# Business Support and Training Made Easy

- Are you left feeling confused by all the organisations offering business support?
- Do you spend too much of your valuable time waiting to be put through only to be connected to an answering service?
- Are you fed up being passed from person to person?
- Would you prefer to speak to someone who will listen to your problem/concerns and come up with solutions?

**If that is the case, then try us, we can make it easy for you!!**

If you are an employer with less than 50 employees, or a sole trader, training may not be at the top of your list of concerns at the moment, but you may have staff who are not as busy as usual, or who may be on short-time working. Now could be a good opportunity to let them spend time improving their basic skills or addressing other training needs.

Nottinghamshire Training Network has got funding from the Learning and Skills Council to do just that, and, working with the Federation of Small Businesses, has put together a training package that can be tailored to the individual needs of your business and staff.

We will work with you to support and upskill your staff during these difficult times. For more information, contact:
