

SUPPORT GUIDANCE & RECOMMENDATIONS

Group Size	This depends upon the size and nature of the year group and access to rooms and Information and Communication Technology (ICT). A recommendation is of groups of 5-8 working as a team all day. Please note that this is only a recommendation.
Groupings	It is recommended, due to the nature of the tasks, that schools mix their students up into mixed skills or ability teams as a broader mix of individuals.
Staffing/ Rooming	Entirely at the schools discretion. We do recommend rotating activities to share packs, ICT access, specialist staff and visitors for the bulk of the day. The final two activities will require groups to have access to at least one computer to produce a marketing plan and prepare for the presentation.
Resources	<ul style="list-style-type: none"> a) The resource pack with supporting FSB information is to assist with the relevant activities. b) The enclosed CD is for schools to duplicate resources for groups. c) Suitable staffing, visitors and expertise. d) Rooming and ICT access. e) Stationery for mapping and printing. f) Internet access for ideas and examples of marketing options. g) Flipcharts, or A3 paper, coloured pens, etc for mapping activity. h) Video camera so that presentations and resources can be filmed. i) CD for school to make a copy of Powerpoint presentation of winning team.
Activity Times	It is recommended that it should take approximately half a day for groups to complete activities 1 to 4 and half a day for groups to complete activities 5 and 6 and conduct presentations.
