Business networking

start greening your business

Learn how to become greener and make new business contacts!

Are you struggling to understand the issues associated with going green? Would you like to appreciate how you could save money through greater efficiencies? Would you like to learn a little more about environmental issues?

... then come along to our environmental networking event and meet other like minded business professionals

Franklins farm shop was opened at Trumpetons Farm, Thorncote Green in October 2003. It was born from the ever increasing requests from local people who were concerned about where their food comes from and the conditions the live animals are kept in. Many consumers are today increasingly discerning and many wish to buy direct from the producer to maximise quality and flavour.

Franklins of Thorncote started out life as a free range egg producer in 1987, supplying local shops and restaurants and doing a village egg round to supply many residents of Ickwell, Northill, Hatch and Thorncote Green with their weekly eggs.

The demand and production of Christmas Turkeys and Geese was also ever increasing year on year, and the business has adapted to meet the demand.

Franklins Farm Shop now sells free range chickens, ducks, rabbit, Gloucester Old Spot pork, Oakley lamb, and free range guinea fowl. From Michaelmas to Christmas, free range Geese, Bronze Turkeys and White Turkeys are available. Locally shot venison, pheasant, partridge and Hare are available in season.

Visiting a farmers market or Farm Shop is also an enjoyable day out, and most customers are looking for a unique experience that they do not receive from other outlets. We provide a welcoming atmosphere and a personal service.

Business Networking Event

**Wednesday 14th October 2009 4pm-6pm
at Franklins of Thorncote
Trumpetons Farm, Thorncote Green, Sandy, Beds.
SG19 1PU**

With the promise of an ever-increasing burden of regulation and the rising profile of environmentally responsible business practice in the face of climate change, companies will be forced to re-evaluate every aspect of their work.

However, the outlook isn't entirely onerous and there are many ways in which even the smallest business can turn greener deeds into a better bottom line.

Along with our guest speaker for this event, Sally Taylor, the founder of Environmental Population will be presenting how businesses can tackle environmental challenges to develop a better image to build a sustainable business, helping to reduce our impact on our world.

Before the presentations there will be opportunity to take part in a farm tour - but please remember to bring appropriate water resistant footwear. Following the presentations there will be plenty of time to network - so don't forget to bring your business cards! Plus there is the opportunity to visit Franklin Farm's shop.

Only £5 for members of Environmental Population, £10 for non-members

For further information on this event, or to find out about becoming a member of Environmental Population, please telephone 01438 317722 or e-mail admin@environmental-population.com.
