

Payroll Services from FSB Workplace Pensions

Roger Jervis is the owner of WMT Bearings (GB) Ltd and initially joined the Federation of Small Businesses (FSB) back in 2013, on the recommendation of another small business owner. He wanted to take advantage of networking opportunities with local companies, as well as using other services like FSB Payments.

He was previously using a local company to manage his payroll, **who charged £30 per month to pass details onto HMRC**, and was looking to reduce overhead costs. After a suggestion that he could save on these costs with the payroll service from FSB Workplace Pensions, Mr Jervis **now pays only £5 + VAT – an annual saving of around £300.**

“The payroll service is seamless and is taken care of in the background, and I get an email once a month so I’m up-to-date. Everything is taken care of, I can access any details I need on the cloud too, like P60s for example.”

“I would recommend FSB and the payroll service to small business owners, whether they pay just themselves like me, or have more employees. Having the service organised and taken care of is great, and there’s the bonus of saving money too. I’ve got enough on my plate without having to worry about payroll! And, if HMRC come running, I know everything is taken care of as part of my FSB membership. I appreciate the service provided by FSB.”
